

Zoidis Grigoris

Assistant Professor of Pharmaceutical Chemistry

Dr. **Grigoris Zoidis** is an **Assistant Professor** at the **Faculty of Pharmacy, Department of Pharmaceutical Chemistry, University of Athens**. Dr. Grigoris Zoidis obtained the Pharmacy degree, M.Sc. and the Ph.D. degrees in pharmaceutical chemistry from the Department of Pharmaceutical Chemistry, University of Athens, in 2000, 2002 and 2006, respectively.

During this period, he received awards-fellowships from the Greek State Scholarship Foundation and trained in Zurich (ETH-2001) in multidimensional NMR techniques. In 2012, he received the Young Investigator award (researcher under 40) from the Association of Greek Chemists.

After postdoctoral research as an EU fellow (CANCER GRID project) at the Department of Pharmaceutical Chemistry, University of Bari, Italy, and a year of postdoctoral research as an EU fellow in the field of: Natural Product Synthesis (Faculty of Pharmacy, Department of Pharmacognosy and Natural Product Chemistry, University of Athens), since January of 2012, Dr. Grigoris Zoidis has been pursuing his independent career at the Faculty of Pharmacy, University of Athens.

His current interests include medicinal and organic chemistry, specifically, design and synthesis of compounds with antiviral, trypanocidal, anticancer and CNS activity.
